

EIP-8025 progress

- **Consensus specs** — EIP-8025 simplification merged in [#5566](#); follow-up [#5593](#) refinement of bounded `ProofData` type and gossip validation.
- **Lighthouse** — Upstream proof gossip and payload gating merged in [#9659](#) and [#9808](#); draft [eth-act/lighthouse#41](#) adds the aligned Gloas implementation and in-process ERE verification, based on the `optional-proofs-gloas` branch in `eth-act/lighthouse`.
