

Prover Infrastructure Updates

- Update
 - Run benchmark on the new suite [tests-zkevm-benchmark@v0.8.2](#) 10M/30M/60M ([results](#))
 - OpenVM v2.1.0-preview
 - ZisK v1.2.0-alpha
 - New features of Provoor
 - Remote metrics
 - Proving pipeline traces
 - Cost estimation analysis

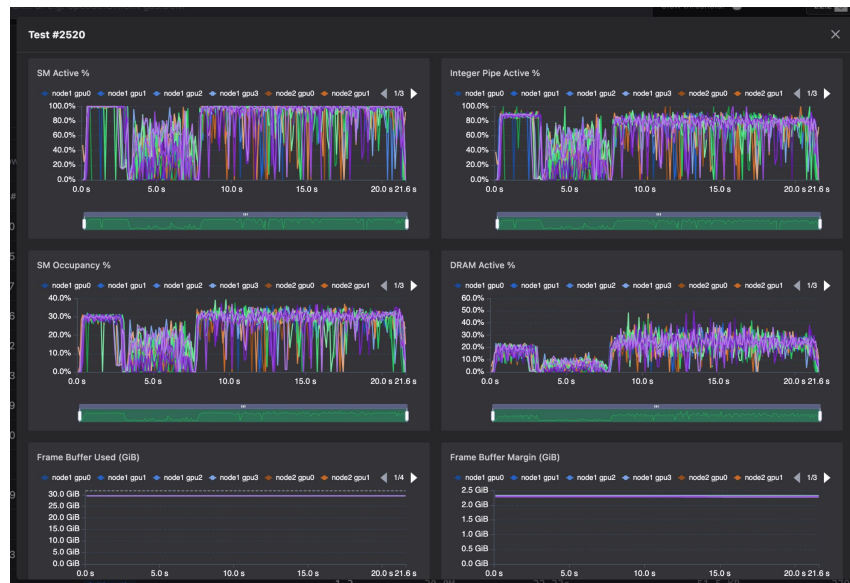

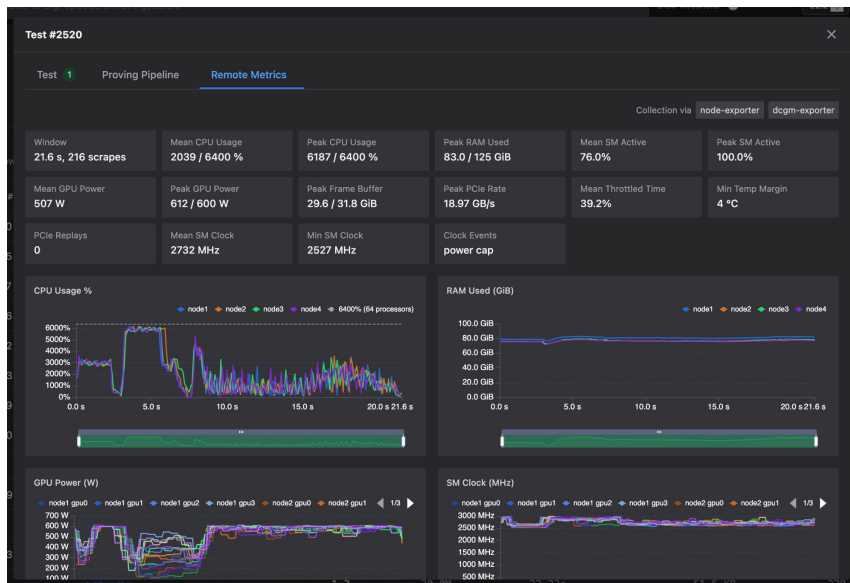

Remote metrics

- Scapes from node-exporter and dcgm-exporter during each proof

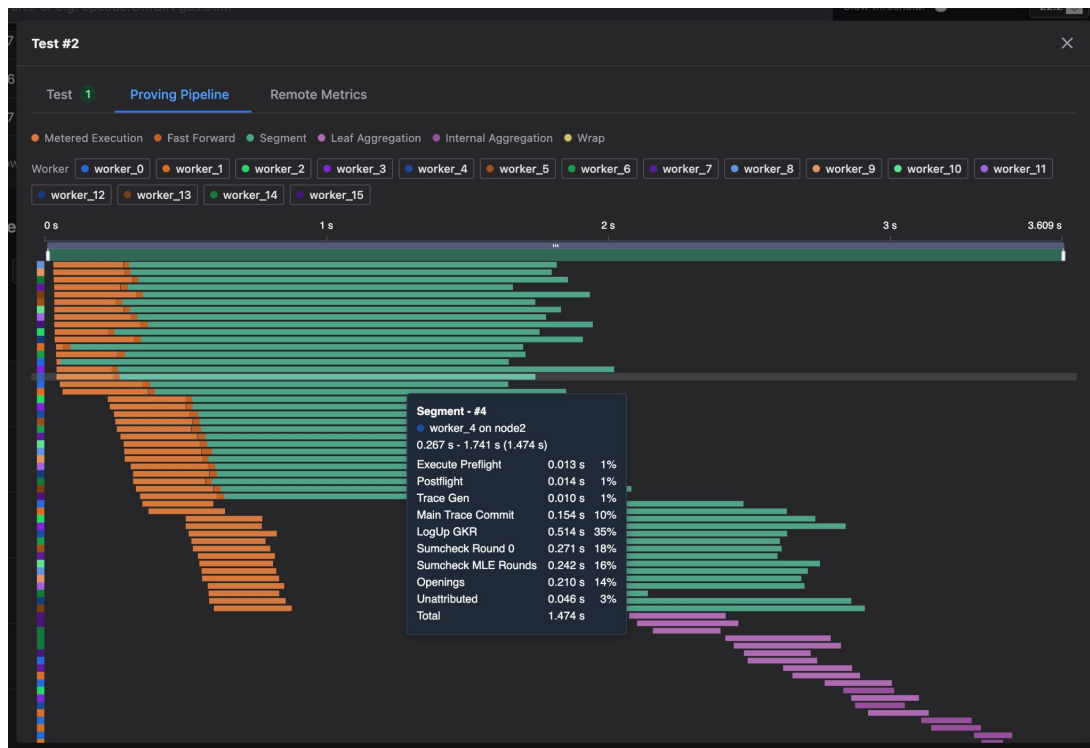

Remote metrics

- Scapes detail in per-test modal

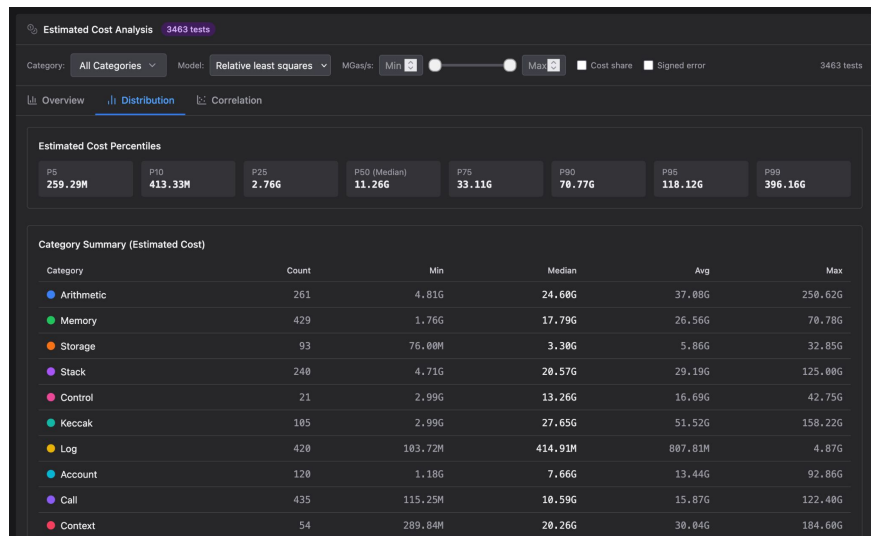

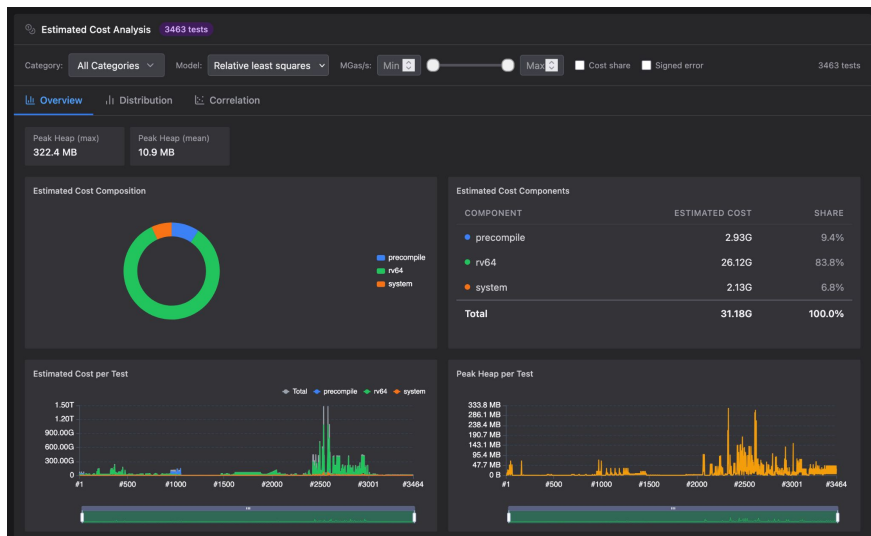

Proving pipeline trace

- With cost composition

Cost estimation analysis

- Composition and cost by category

Cost estimation analysis

- Correlation with proving time

|Error| Percentiles
